PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience in React, JavaScript, TypeScript, and Next.js, building responsive web interfaces with HTML5, CSS3, and Tailwind CSS. Background in technical support and IT service desk roles (2021–2025) developing strong debugging, root-cause analysis, and communication skills. Comfortable with REST APIs, Git/GitHub, and Node.js/Express.js. Bilingual (Spanish/English), self-driven, and focused on clean, maintainable code.

TECHNICAL SKILLS

- Languages & Frontend: JavaScript (ES6+), TypeScript, React, Next.js (in progress), HTML5, CSS3, Tailwind CSS, SASS, Vite, Responsive Web Design
- Backend & APIs: Node.js, Express.js, REST APIs
- Tools & Practices: Git & GitHub, ServiceNow, Cross-Browser Compatibility, UI Optimization, Technical Documentation, Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Remote Support Specialist — Emerson Electric *2023 – 2025*

- Investigated and resolved complex technical and software issues for remote users, applying structured debugging and root-cause analysis.
- Managed system configurations, user accounts, and access permissions across multiple platforms.
- Documented technical solutions and maintained the internal knowledge base, improving resolution speed for recurring issues.
- Troubleshot system errors, connectivity issues, and application conflicts in fast-paced, deadline-driven support environments.

IT Service Desk Analyst — Emerson Electric *2021 – 2023*

- Triaged and resolved technical, software, and connectivity issues for end users in remote environments using ServiceNow.
- Managed incidents and service requests end-to-end, ensuring timely resolution and appropriate escalation.
- Collaborated with cross-functional technical teams to identify recurring issues and improve support workflows.
- Created and maintained technical documentation and support procedures, improving troubleshooting efficiency for the team.

PROJECTS

Personal Portfolio Website — *portafolio-personal-luis-badilla.netlify.app*

- Built and deployed a responsive portfolio using HTML, CSS, JavaScript, and TypeScript, showcasing personal projects and frontend skills to employers.

FilmFinder — Movie Search App — *buscador-peliculas-zeta.vercel.app*

- Developed a movie search web app with a responsive UI that consumes a third-party movie API for real-time search results.

Driving School Website — *clases-de-manejo-ten.vercel.app*

- Designed, built, and deployed a responsive marketing website for a local driving school, hosted on Vercel.

EDUCATION

Bachelor's Degree in Software Development — ULACIT

2022 – 2025

Technical Degree in Web Development — Cenfotec

2021 – 2022

Bachelor's Degree in Systems Engineering — Universidad Americana

2017 – 2021

PROFESSIONAL DEVELOPMENT

McKinsey Forward Program — McKinsey & Company

2026

- Completed professional development training focused on problem-solving, communication, adaptability, and workplace effectiveness.

Cybersecurity Course — Universidad de Costa Rica (UCR)

- Covered core cybersecurity concepts including the CIA triad (confidentiality, integrity, availability), ethical hacking, penetration testing, and web application security.
